## Covid-19 Pandemic Supplies: KN95 Respirator Masks

**Item #:** 9003

**Price:** \$20.00 plus HST

**UOM:** 10 masks per box.

**Description:** KN95 protective Mask FDA CE Approved 99% BFE

A KN95 respirator is a respiratory protective face mask, designed to help reduce the user's exposure to airborne particles including very small particles (0.3 microns) and large droplets. KN95 respirator face mask has a filtration efficiency of at least 95% against non-oily particles.

### PRODUCT'S BENEFITS

- ☐ FDA & CE APPROVED
- ☐ Multi-layer filter for extra protection
- ☐ Extra comfort: Non-woven fabric, skin-friendly
- ☐ Easy Breathe: Low respiratory resistance
- ☐ Perfect coverage: Better fit for your face

### COMPETITIVE ADVANTAGE

KN95 respirator masks are a more tight-fitting face mask. In addition to splashes, sprays and large droplets, this respirator can also filter out 95% of very small particles. This includes viruses and bacteria. The respirator is designed to form a tight seal to your face. Elastic bands help hold it firmly to your face.

### IMPORTANT NOTE

Users of KN95 respirators must continue to perform a seal check each time they put one on. It's also important to note that a tight seal can't be achieved in some groups. These include children or individuals with facial hair.

## Covid-19 Pandemic Supplies: Children's Disposable Protective Mask ages 5-12

**Item #:** 9004

**Price:** \$5.00 plus HST

**UOM:** 50 masks per box.

### **Description: Isolation Gown / Protective Gown**

Disposable Isolation / protective gown provides long lasting protection. The isolation gown provides full upper body coverage keeping particles off of skin. Gowns can be used for hospital / health care industry, schools, child care, manufacturing etc. Waterproof, oil proof Size XXL. 100% Polypropylene gown, non sterile disposable isolation protection. Meets FDA standards for isolation gowns. GB18401B

**Price:** \$60 per package of 30 gowns

**MOQ:** Minimum order quantity one package of 30 gowns

# samaritan® PAD 350P

## Public Access Defibrillator with CPR Coaching

### Compact, Easy-to-Use, Lifesaving Technology

Sudden Cardiac Arrest (SCA) is a leading cause of death globally. Response time is critical for survival. The samaritan® PAD 350P is designed especially for use in public areas by providing a sophisticated defibrillator for adult or pediatric use, inside a lightweight and easy-to-operate system.

### Compact in Size, Long on Ability

**Portable and lightweight.** The samaritan PAD 350P is lighter (2.4 lbs/1.1 kg) and smaller than other defibrillators.

**Durable.** The samaritan PAD 350P resists shock and vibration and carries an IP56 Rating, the industry's highest rating against dust and moisture ingress. It also carries a ten year unit warranty.

**Advanced technology.** The samaritan PAD 350P utilizes proprietary electrode technology, advanced and stable firmware, and proprietary SCOPE™\* Biphasic technology (an escalating and low-energy waveform that automatically adjusts for patient impedance differences) to assess rhythm and recommend defibrillation if necessary.

Advanced technology balanced against the demands of real world use. At HeartSine, our innovation changes lives. And saves lives.

\*Self-Compensating Output Pulse Envelope (SCOPE) technology automatically compensates energy, slope and pulse envelope for the patient.

### Easy-to-Follow Visual and Verbal Guides

**User-friendly.** The samaritan PAD 350P features easy-to-understand visual and voice prompts that guide a user through the process including CPR coaching.

**Two-button operation.** Only two buttons, ON/OFF and SHOCK, are required for straightforward operation.

**Always ready.** A System Status Ready Indicator flashes to show that the complete system is operational and ready for use. The device automatically runs self-check each week.

Visual cues prompt pad placement

Stand clear of the patient

Safe to touch the patient

### Real Economy for the Real World

**Two parts, one expiration date.** Pad-Pak™ cartridge combines battery and electrode pads, with one expiration date to monitor.

**Low cost of ownership.** With a shelf life of four years from date of manufacture, the Pad-Pak offers significant savings over other defibrillators that require separate battery and pad units.

**Pad-Pak and Pediatric-Pak with pre-attached electrodes.**

The HeartSine PAD's built-in intelligence and unique pediatric Pad-Pak ensure the appropriate energy level is delivered for children.

Physical	With Pad-Pak™ Inserted
Size:	8.0 in x 7.25 in x 1.9 in (20 cm x 18.4 cm x 4.8 cm)
Weight:	2.4 lbs (1.1 kg) including Pad-Pak Battery

Defibrillator	
Waveform:	Self-Compensating Output Pulse Envelope (SCOPE) Biphasic waveform. Optimized biphasic escalating waveform compensates energy, slope and envelope for patient impedance

Patient Analysis System	
Method:	Evaluates patient's ECG, signal quality, electrode contact integrity and patient impedance to determine if defibrillation is required
Sensitivity/Specificity:	Meets ISO 60601-2-4

Environmental	
Operating/Standby Temperature:	+32°F to +122°F (0°C to 50°C)
Temporary Transportation Temperature:	14°F to 122°F (-10°C to 50°C) for up to two days. Unit must be returned to standby/operating temperature for 24 hours before use.
Relative Humidity:	5% to 95% (non-condensing)
Water Resistance:	IEC 60529/EN 60529 IP56
Altitude:	0 to 15,000 feet (0 – 4,575 meters)
Shock:	MIL STD 810F Method 516.5, Procedure I (40 G's)
Vibration:	MIL STD 810F Method 514.5+ Category 4 Truck Transportation – US Highways Category 7 Aircraft – Jet 737 & General Aviation (Exposure)
EMC:	EN 60601-1-2
Radiated Emissions:	EN55011
Electrostatic Discharge RF Immunity:	EN61000-4-3 80MHZ-2.5GHZ (10 V/m)
Magnetic Field Immunity:	EN61000-4-8 (3 A/m)
Aircraft:	RTCA/DO-160F, Section 21 (Category M)
Falling Height:	3.5 feet (1 meter)

Energy Selection	
Adult:	Shock 1: 150J; Shock 2: 150J; Shock 3: 200J
Pediatric:	Shock 1: 50J; Shock 2: 50J; Shock 3: 50J

Charging Time	
New Battery:	Typically 150J in < 8 seconds, 200J in < 12 seconds
After 6 Discharges:	Typically 150J in < 8 seconds, 200J in < 12 seconds

Event Documentation	
Type:	Internal Memory
Memory Capacity:	90 minutes of ECG (full disclosure) and event/incident recording
Playback Capabilities:	Custom USB cable directly connected to PC and Saver™ EVO Windows-based data review software

Materials Used	
samaritan® PAD 350P:	ABS, Santoprene. Printed circuit board with electronic components.
Housing:	ABS – Electrodes: Hydrogel, Silver, Aluminium and Polyester

Pad-Pak — Electrode and Battery Cartridge	
Adult Pad-Pak (Pad-Pak-01) and Pediatric Pad-Pak (Pad-Pak-02)	
Shelf Life:	4 years from manufacture date
Weight:	0.44 lbs (0.2 kg)
Size:	3.93 in x 5.24 in x .94 in (10 cm x 13.3 cm x 2.4 cm)
Battery Type:	Lithium Manganese Dioxide (LiMnO2)
Capacity:	> 60 shocks at 200J 18V, 1.5 Amp Hrs
Electrodes:	HeartSine samaritan® disposable defibrillation pads are supplied as standard with each device
Placement:	Anterior-lateral (Adult); Anterior-posterior (Pediatric)
Active Gel Area:	15.5 in² (100 cm²)
Cable Length:	3.5 feet (1 meter)
